

(318)

Mr Speaker, I have so just a regard to the welfare and Reputation of this Province to hope
I shall never see that Day. Therefore let me advise you Gentlemen, who are elected to serve
your Country, as you have now always endeavoured to preserve her gracious ^{Majesty's} Image
and do not be led away by the common Information of designing wicked men to mar
the Glories of our indulgent Sovereign, since 'tis evident the Practice and Principles of such
enemies in Government will soon ruin your Constitution and contaminate the Country of this
already poor languishing Province.

Gentl. I must acquaint you her Majesty has been pleased to disapprove of two Laws
lately made here vizt. That against Masters cropping Tobacco on board their Ships and
the other about the Gauge of your Tobacco Hogsheads and her Majesty commands me to tell
you 'tis her Royal Pleasure that we in this Province conform to the size of those in Virginia
and recommends a new Law to be made for that Purpose.

Her Majesty thinks Sir Thomas Lawrence was hardly used by the late Assembly who
made a Law to cut off the Benefits of the Ordinary Licenses from his Office which the
late Attorney General Sir Simon Harcourt judges to be the lawful Prequisites of her Majesty's
Secretary here. Mr Speaker shall have the Said Attorney General's Report and her Majesty
Order thereon who is graciously pleased to recommend a Law to you Gentl. that the Ordinary
Licenses may be appropriated to the Office of her Majesty's Secretary of Maryland for a longer
Duration of Time than three years, and shall likewise shew you the Order which the Right
Honble the Lord Commissioner of Trade & Comptrolr sent me about this very complaint which plainly
shew her Majesty earnestly recommends this Bill to your Consideration, by which you will easily
guess what ill consequences may follow your Refusal; therefore hope you will be so prudent to
show your ready Compliance herein —

Mr Speaker, I have received Instructions about the four Justices who are appointed to hold
the Provincial Courts and Annually go their Circuits twice and am commanded to let her Maj
have speedy Notice what Provision the Country has made to enable them the better to go through
the fatigues of their constant Attendance on that Duty. Let your Concurrence therefore be
hearty and cheerful while it is in your Power and banish all flattering Whispers which duty
you so swallow such a pernicious Notion that you Gentl. here assembled are wiser than
the vast Crowds of her other great Dominions, who unanimously with open loyal Hearts
run to obey and serve her Exalted Majesty the Queen.

Her Majesty seems concerned the last Assembly threw out the Bill for punishing those
that at any time should raise or disperse false News during this war and am commanded
to offer it anew to you Gentlemen Delegates, nor can I believe any reasonable well meaning
man to the Government will ever be against it.

Gentl. There is an Arrear due to the poor men employed to secure your Magazine during
your late Disturbances and was my very great concern to preserve the Peace of the Country. I'm
sure it's your Part to see those paid and rewarded who were so ready and vigilant to serve
the Public — Gentl. It's high Time to look into the many Immoralityes of this unhappy
deluded Country, where Drunkenness, Adultery, Sabbath breaking and Forgery are a jest,
Murder trifled and the Malefactors glory in it. Reasons thought a Trifle and the Abettors
caressed. Magistrates grow careless and the Offenders impudent till these things are in some
measure amended by your Pudence and Example I have but slender Hopes your Debates can be
successful. But as we are all willing to be called Christians let us in our several Stations act
like men who deserve that noble excellent character that the Heathens round about us may
not continue to mock at our Hypocrisy and despise at our Religion and let that Magistrate
be disgraced with Infamy who ever connives at or countenances any sort of Unlawful or Other
